

APPLICATION FOR EXPORT PERMIT OF
NATURAL HISTORY SPECIMENS COLLECTED IN ICELAND
(animals, plants og geological research samples)

Information about the applicant/collector:

Project name

University/Establishment/Firm

Project supervisor

Applicant

Address

E-mail

Telephone/Mobile/Fax

Name and address of
export permit holder(s)

Date, timeline and duration of the project

Site in Iceland where samples were or will be collected

Please note:

Collecting in a protected area requires a research permit from Nature Conservation Agency (<https://ust.is/english/visiting-iceland/permits-in-protected-areas>) or other relevang agencies (<https://www.thingvellir.is/en>). Collecting microorganisms in a geothermal area requires a research permit from Environment and Energy Authority in Iceland (https://orkustofnun.is/en/national_energy_regulatory/licensing).

Attach a copy of all sampling/research permits to this application.

Project description, purpose and execution

Description of sampling methods

Description of the sample(s) to be exported, quantity and estimated volume and/or weight

Name of recipient and address where the samples are to be exported

Other relevant information

I, the undersigned, hereby confirm that I am aware of the provisions of Icelandic law no 54/2024 which state that export of natural history specimens is prohibited except with permission of the Icelandic Institute of Natural History. I warrant that those who are involved in the project shall comply fully with Icelandic laws concerning this application.

Send the application to: Natural Science Institute of Iceland, E-mail: natt@natt.is
